

Marina Eckhart

When Marina was 8 years old she started to play the drums. Years later she discovered the Drummers Collective in New York, where she graduated in 2011. Since her childhood she was singing in a choir and at the age of 15 she started to play piano and to write her own songs.

In January 2021 Marina releases her first solo album "Lifts Me High", containing seven pieces of spiritual world music. The songs are written to spread love, spirituality and a deep bond with nature. Her second album "Falcon Heart" is released on April 26, 2024.

Parallel to her musical work Marina has written the fantasy-adventure trilogy "Das Band der Samienen", consisting of the books "Rabenkälte", "Schattenwahrheit" & "Königsneige", which were released 2020 and 2021. The heroes of the story use portals to travel to unknown realms, have magical powers and fight against terrifying creatures threatening to destroy their homeworld. "Rabenkälte" was also released as an audiobook.

Additionally Marina is a passionate painter, who designs all of her book & album covers herself. Many of her creations are available printed on apparel and accessories.
